

Colt Series

Heavy-Duty Cord-Electric Wet/Dry Vacuums

The Colt Series of wet/dry vacuums from NSS® offers incredible cleaning power and versatility. Available in three different sizes, the Colt vacuums allow you to match the machine with your requirements:

Colt 1450 P

- 14.5-gallon recovery capacity
- Rotocast polyethylene tank with ten-year limited warranty
- Tip-dispose base for emptying convenience

Colt 1250 S

- 12.5-gallon recovery capacity
- High grade stainless steel tank with three-year limited warranty
- Tip-dispose base for emptying convenience

Colt 800 P

- 8-gallon recovery capacity
- Rotocast polyethylene tank with ten-year limited warranty
- Drain plug for easy emptying

- 1.23 HP, 2-stage bypass vacuum motor provides powerful suction for any cleaning job, wet or dry. A separate stream of fresh air cools the motor, preventing damage from moisture and debris.
- Durable Colt powerheads incorporate narrow openings and large chambers to reduce motor noise, just like a car muffler. The result is a quiet 62 dBA sound level, allowing you to use a Colt day or night in occupied areas with minimal disruption to co-workers, customers, or patients.
- Dependable, heavy-duty Colt vacuums are ideal for wet and dry spill pick-up as well as stripping solution recovery in schools, healthcare facilities, hotels, and retail locations.
- For added productivity, a 27-inch front mount squeegee is available.

Shipping Class 150		
Warranty 3 years limited 10 years polyethylene parts		

- 1 Rugged polyethylene powerhead and base stand up to heavy-duty commercial use.
- 2 An optional HEPA filter assembly is available to filter fine particulates.
- 3 Optional 27 in front mount squeegee is ideal for spill recovery in large areas.
- 4 Large rear wheels and front casters make the Colt extremely maneuverable.
- 5 Tip-dispose tank (and drain on the Colt 800) allows easy emptying into most toilets and drains.

Colt 1250 and Colt 1450 only

DO NO HARM

The front mount squeegee, which aids in large-area wet pick-up, helps reduce the operator fatigue often associated with a hose and wand.

The quiet operation (62 dBA) allows extended use in daytime cleaning environments.

Optional HEPA filter provides additional protection for healthcare and other applications where Indoor Air Quality is a major concern.
