

DeltaView Reader

Data Reader for Dual Pro Battery Chargers

Collect and analyze battery charger performance. Share data with NSS technical services and customers.

For use with the Champ, Wrangler 3330, Wrangler 2730, Wrangler 2625, Wrangler 2016 (225 AH version only) automatic scrubbers and Charger series battery burnishers manufactured after September 1, 2012. Machines must be equipped with the standard Pro Charging Systems Dual Pro battery charger*.

* The data collection system is only present in Dual Pro battery chargers manufactured after August 1, 2012.

Data Collection

Data is transferred from the battery charger to the DeltaView Reader through a simple process that takes just a few minutes.

Data Analysis

Insert the DeltaView Reader into the USB port of any Windows computer. Transfer the data to the data analysis software. Review the charging data from the last 83 charge cycles including:

- Starting Battery Voltage
- Charging Time
- Early Charge Terminations
- Charging Error Codes
