

Designer Dry

Canister Vacuum Cleaner

The Designer Dry canister vacuum cleaner is the lightweight—yet powerful—answer for most dry vacuuming applications. Featuring a generous 1.23 HP motor, this Designer is the economical choice for carpeted or bare floor areas.

- Swivel casters and a wide base result in a low center of gravity, allowing the Designer Dry to easily follow behind the operator.
- A durable, non-marking base protects furniture and walls from damage.
- The Designer Dry comes standard with an accessory tool kit.
 - The flip tool makes the transition from bare floor to carpet easy.
 - A 7-foot hose with swivel cuff and 3-piece wand reach overhead areas that are usually difficult to clean.
 - A crevice tool, round brush and upholstery tool are also included.
- For extra carpet penetration, a 16-inch Powerwand can be added. This attachment features two rows of spinning brush bristles to raise the carpet nap when vacuuming.
