

Mustang 1500

High Speed Floor Burnisher

For fast burnishing with exceptional results, the Mustang 1500 is an outstanding value in high speed floor care. Operating at 1500 RPM, the Mustang 1500 delivers a high-gloss 'wet-look' shine at an economical price.

- The Mustang 1500 features a flexible, built-in pad driver for smooth, balanced, and safe operation.
- Built-in wheel carriage allows easy transport of the machine on stairs.
- The Mustang 1500 is available with NSS' Vac-Trac Dust Control System to capture dust and deposit it into a filter in the front of the machine, maintaining IAQ.
- The Mustang 1500 features a mechanical lock-out which must be released before the switch lever can be activated. This safety feature prevents unauthorized operation of the machine if it is left unattended.

Weight	
Machine	97 lbs (44 kg)
Shipping	109 lbs (49.5 kg)
Shipping Class	125
Warranty	3 year limited
Productivity	9,545 sq ft per hour (887 sq m)

- 1 The mechanical lock-out prevents unauthorized use of the machine.
- 2 The circuit breaker in the handle protects the Mustang 1500 from overloads.
- 3 Reinforced cord strain relief prevents damage to the cord.
- 4 The powerful 66-frame, 1.5 HP motor delivers all the burnishing muscle you'll need.
- 5 The handle adjusts to operator's comfortable working level, then locks into place.
- 6 A safety-yellow vinyl bumper surrounds the burnisher's deck to protect walls and fixtures from accidental damage.
- 7 The built-in wheel carriage allows easy transport on stairways.

The Mustang 1500 is available with the NSS' Vac-Trac Dust Control System to collect the powder that often results from burnishing old floor finish, and deposits it into a filter at the front of the machine. The filter (#5990291) can be easily removed to clean or replace.

The dBA rating on the Mustang 1500 is 63, making this burnisher quiet enough to use without disturbing customers and co-workers.
