

Predator CXH 100 & CXC 100

8-Gallon Compact Tank Extractors

For big cleaning performance in a compact design there is the 8-gallon CXH 100 (Hot) and CXC 100 (Cold) Predator tank extractors from NSS.

- The NSS Predator series of tank extractors are high-pressure machines with amazing carpet cleaning abilities.
- With the heated CXH 100 model, hot, high-pressure solution is literally blasted deep into the carpet nap, and then immediately extracted for the ultimate in restorative carpet cleaning.
- The Predator CXH 100 comes equipped with Smart Circuit Locators (no more blown breakers), Solid-State Circuitry (trouble-free operation) and an Instant Heat Exchanger (consistent 212°F solution temperature).
- This model features a 100 PSI pump in a compact, easy-to-transport body.
- Dual vacuum motors produce 150 inches of waterlift with the help of a vacuum manifold, which equalizes motor performance and assures consistent, smooth operation.
- The CXC 100 is the non-heated version of this machine.

- 1** Clear view recovery tank bubble allows the operator to monitor the level of recovered solution.
- 2** A flip top solution tank prevents solution from slopping out during operation.
- 3** Rotocast polyethylene body resists dents and corrosion, translating to years of dependable service.
- 4** Each machine comes with a built-in cord wrap for convenient storage of cords.
- 5** 3-inch swivel casters allow amazing maneuverability during extraction.
- 6** Large, 8" non-marking back wheels make transportation on stairs easy.

Cleaning with hot water is substantially better than cleaning with cold. The heated model (CXH 100) allows better cleaning while using less or even no chemicals that can be hazardous to the environment.

Gate-type drain valve to empty recovery tank. Convenient handle in front to aid transport of this Predator.

All Predator models are equipped with large, international-symbol rocker switches for easy machine operation.
