

# Predator CX3

Three-Tank Carpet Spotter

The Predator CX3 is the most versatile, maneuverable, and rugged carpet spotter on the market today. It is the ideal machine for interim cleaning of small problem extraction areas. The Predator CX3 can be used on all carpets, including stairs; for upholstery and car detailing; and in any hard-to-reach area.

- Dual, one-gallon (3.785 liter) solution tanks allow you to use one tank for solution, and a separate tank for rinse, minimizing chemical use and reducing the potential for resoiling.
- Detachable, oversized 2.5 gallon (9.5 liter) recovery tank leaves plenty of room for recovered liquid and foam, protecting the vacuum motor.
- Built-in handle and rear wheels make transportation from spot to spot a snap.
- Rugged, rotocast polyethylene body will not dent, rust, crack, or corrode.
