

Surge CXC 1200

11-Gallon Dual Surface Cleaner

The Surge CXC 1200 allows tile and grout cleaning and restorative carpet cleaning from the same machine. When used with the hard surface rotary tool, two 1200 PSI streams quickly clean away the toughest soils from hard floors. Turn the pressure regulator to 500 PSI and attach a carpet wand, and the Surge CXC 1200 becomes a powerful cold water restorative carpet extractor.

- Two streams of 1200 PSI water turn the spray bar at 1400 RPM, providing consistent cleaning, even in the grout lines.
- The hard surface tool includes a vacuum shroud that encircles the spray head allowing for thorough water recovery.
- Two 0.75-in garden hose fittings allow for auto-fill and auto-dump of the solution water, increasing productivity and eliminating trips to the sink to fill or drain the machine.
- Powerful dual vacuum motors provide 140" of waterlift.
- A circuit locator indicates when the two cords are plugged into different circuits, preventing overloading of the building circuits.
