- The zero turn radius design allows the scrubber to be used up against the wall and in tight areas.
- Training is easy. A training manual is built into the touch screen control panel.
- Dial in exactly what you need for your application. Three solution flow rates, three pad pressures, two pad speeds and two vacuum speeds give you the flexibility you need to maximize your productivity and run time.
- Conservation Mode — With one button press, the eForce Scrubber is set to the lowest water and power settings. Perfect for cleaning areas where quiet operation and water conservation is needed.
