

# Rally 220, 220H, & 500H

## 12-Gallon Tank Extractors

### Feature

### Benefit

#### Large Carpet Coverage

The Rally tank extractors clean quickly and efficiently, covering 500 sq ft per hour (Coverage figures based on *ISSA 612 Cleaning Times*).

#### Wheels, Handle & Construction

Large wheels, integrated handle, quick-release cord wraps, and lightweight construction team up for easy handling and storage.

#### High Pressure Pumps

The impressive 220 or 500 PSI pumps blast cleaning solution deep into the carpet, and is then immediately extracted for the ultimate in restorative carpet cleaning.

#### Adjustable Pressure

The 500H hot-water Rally model has adjustable pressure, from 200 to 500 PSI for versatility in cleaning options.

#### 1850-Watt Heater

The 2000-watt heater keeps a steady supply of hot water available (220H and 500H models only). For best results, an “8-seconds on, 8-seconds off” spraying pattern is recommended.

#### Dual Vacuum Motors

The dual vacuum motors produce 84 inches of water lift in the 220 models and 120 inches in the 500H model for consistent, smooth operation.

#### Construction

Rotomolded polyethylene body and tanks won't dent, crack, or corrode.

#### Clamshell Design

Maintenance is a breeze—just remove one bolt and open up the clamshell design for quick internal access.
