THE FLOOR-TO-CEILING VACUUM

MODEL M-1 "PIG"

The Model M-1 "PIG"[®] is the powerhouse vacuum that cleans anything from floor to ceiling. Customize the Model M-1 to your application with a wide variety of tools and wands. This is one vacuum that does it all—hard floors, carpet, furniture, fixtures, curtains, HVAC vents, walls, ceilings and skylights.

- Vacuum almost anything. The Model M-1 has an innovative design that prevents the vacuum from sticking to surfaces. We call it Automatic Variable Suction. Turn the page over to learn more.
- Extreme durability. Machined from high quality materials and warranted for 7 years, the M-1 pays for itself quickly through low maintenance and repairs.
- Highly productive. With the Model M-1's light weight wand and 10' hose, your staff can clean faster than an upright vacuum. Case in point, the 16-inch carpet tool can clean 20% faster than a standard upright.
- Blower feature. Simply replace the filter bag with the hose and the Model M-1 becomes a powerful blower.

Model M-1 Vacuum
(tool kit sold separately)

DO NO HARM™

By allowing your staff to high dust up to 20 feet above the floor without using a ladder, the Model M-1 helps lower the risk of injury from falls while cleaning.

Printed on Green Seal[®] certified paper that contains 30% recycled post-consumer fiber.

SPECIFICATIONS

MODEL M-1

Cleaning Path (Carpet)	12 in (30 cm) 16 in (41 cm)

Filtration Capacity Efficiency Filter Area	48 quarts (53 L) 99.4% at 0.3 micron 1,200 in ² (0.8 m ²)
Input Voltage	120V
Cord	35 ft (10.7 m) 16-3 ST
Construction	Cast Aluminum
Dimensions L x W x H	17 x 12 x 32 inches 43 x 30 x 81 cm
Weight Machine Shipping	35 lbs (16 kg) 42 lbs (26 kg)
Shipping Class	85
Warranty	7 years parts, 1 year labor
Productivity	6,600 to 7,300 ft ² /hr depending on the tool

- 1. Extraordinary Air Flow.** The powerful motor in the Model M-1 turns the large suction fan at 10,000 RPM, generating a tremendous amount of air flow. Dust is sucked into the cleaning tool before it has a chance to drift to the floor.
- 2. Automatic Variable Suction.** The large chamber in the front of the suction fan allows air to recirculate when the tool opening is sealed. This means that the Model M-1 won't stick to overhead surfaces like pipes, ledges, light fixtures, curtains or banners.
- 3. Scrap Trap.** Heavy objects are caught in the front chamber, protecting the fan from damage.

TOOL KITS

HIGH DUSTING KIT

Clean up to 20 feet above the floor without ladders. This kit lets you clean where other vacuums can't. Three stackable wands, three wand extenders, two pipe cleaning tools, and three dusting brushes let you build the rig you need to vacuum just about anything.

CARPET AND HARD FLOOR KITS

NSS has a variety of tool kits for any application. Purchase a kit or buy just the tools you need.

- Round Brushes
- Carpet Tools
- Hard Surface Tools
- Crevice Tools

Tools manufactured by NSS carry a ten year warranty
