## 4-GALLON CORDLESS ELECTROSTATIC SPRAYER

The eStaticMist creates a fine spray of charged droplets which evenly coats foliage. The charged droplets will move upwards against gravity and wrap around plants improving coating consistency.

- Fast and effective. This sprayer is perfect for covering large-scale areas quickly. Because it's cordless, your staff can treat more plants by quickly moving between areas.
- Conserve nutrient or pest management solutions and reduce over-spray. Charged droplets are attracted to plants ensuring uniform coverage in a consistent pattern.
- Large capacity 4-gallon tank with agitator allows for up to 2.5 hours of spray time per tank.
- Reliable service network with our electrostatic cultivation advisor support.

**DO NO HARM™**

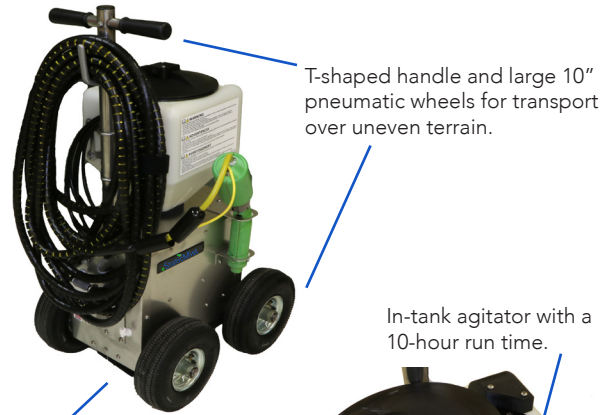

Reducing sprayed products helps to improve the carbon footprint of your operation. In addition to saving on the sprayed products itself, you also reduce the packaging and fuel consumed for procurement.

Printed on Green Seal® certified paper that contains 30% recycled post-consumer fiber.

SPECIFICATIONS

# eStaticMist

<b>Tank Capacity</b>	4 gallons (15 L)
<b>Tank Mouth Opening</b>	6 inches (15 cm)
<b>Tank Construction</b>	Polyethylene
<b>Pump Type</b>	24V electric
<b>Hose Length</b>	9-foot and 50-foot hose (15.2 m)
<b>Hose Material</b>	Polyester reinforced PVC
<b>Lock-On Feature</b>	Yes
<b>Spray/Flow Rate (GPM)</b>	0.02 GPM
<b>Spray Tip(s)</b>	70 micron factory installed 100 micron tip included
<b>Filter</b>	3 Stages: In-tank screen, in-line strainer, spray tip screen
<b>Charger</b>	100-240V universal input
<b>Recharge Time</b>	Up to 8 hours
<b>Battery</b>	12V Maintenance Free AGM
<b>Run Time</b>	10 hours / charge, up to 12 gallons
<b>Sound Level</b>	62 dBA
<b>Dimensions L x W x H</b>	22 x 13.9 x 40.5 inches 55.9 x 35.3 x 102.9 cm
<b>Weight</b>	
Machine	63 lbs (28.6 kg)
Shipping	75 lbs (34.0 kg)
<b>Warranty</b>	3 Year Parts Warranty

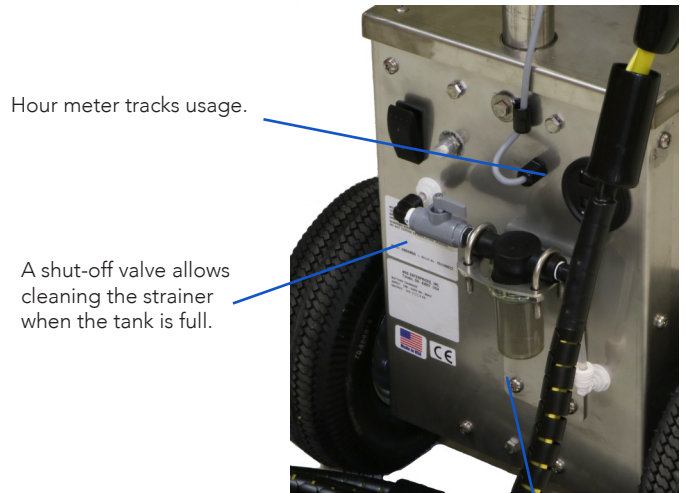

T-shaped handle and large 10" pneumatic wheels for transport over uneven terrain.

In-tank agitator with a 10-hour run time.

A grounding plate helps ensure effective transfer into uniform droplets.

Hour meter tracks usage.

A shut-off valve allows cleaning the strainer when the tank is full.

An in-line strainer traps unwanted particles
